E355

Automatic Case Packer for Bags

A drop packing solution to meet your specific requirements:

▶ TECHNICAL CHARACTERISTICS

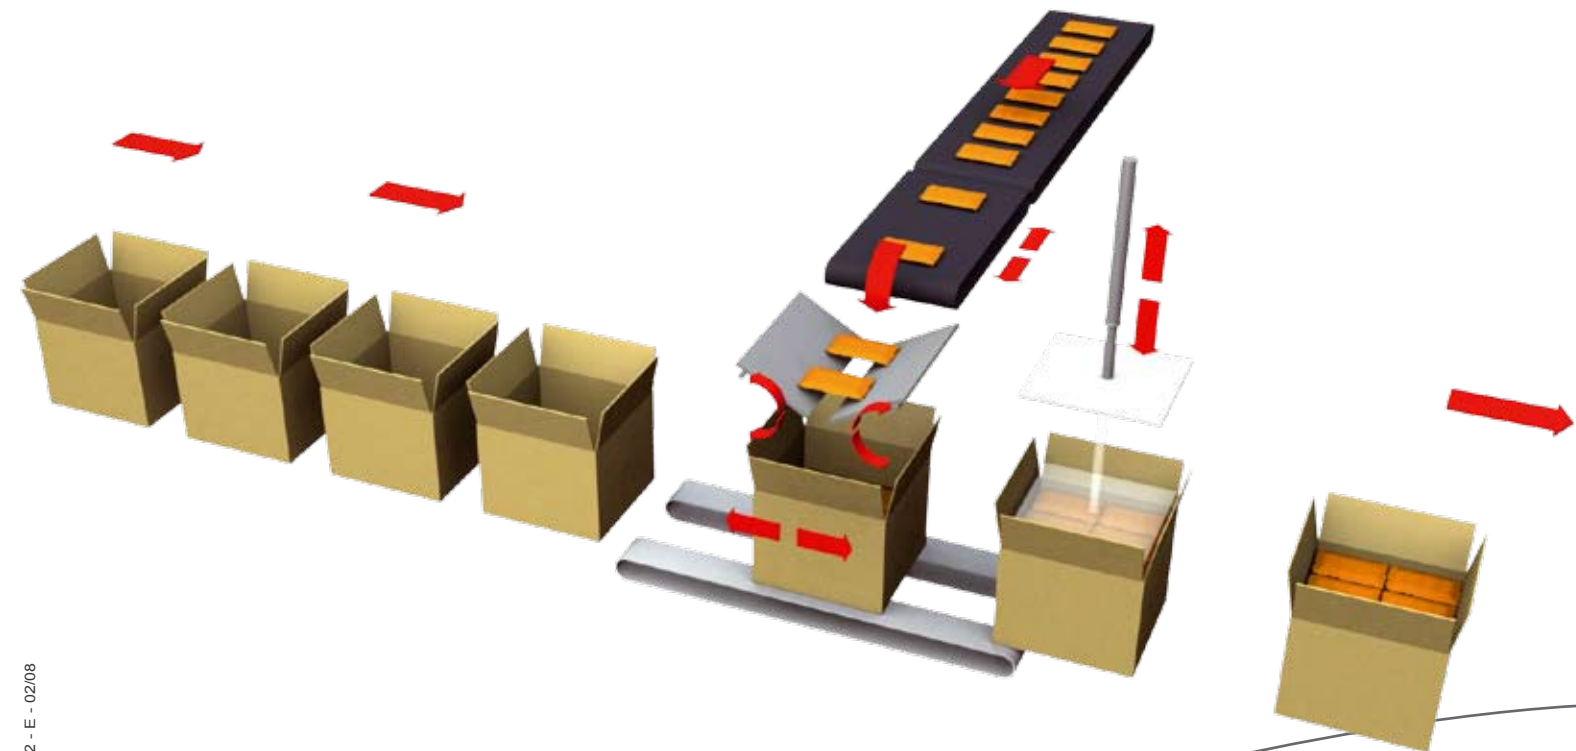

- > Products fed in on a retractable belt conveyor at increased speed to avoid product accumulation
- > Product rows formed on the “bomb doors” of the collation table by controlling the infeed belt
- > Product collation in the case determined by the position of the case at the loading station

▶ ERGONOMICS

- > Compact machine / small footprint
- > Optional rejection of incorrectly filled cases
- > Optional merging of several lanes upstream

▶ PERFORMANCE

- > Speeds of up to 60 cycles per minute depending on the application
- > Quick format changeovers
- > Product and case size ranges available on request
