S o l u t i o n s

Robotization broadens your horizons:

With numerical axis gantry packers designed internally or the integration of all types of Scara or polyarticulated robots from renowned manufacturers in the field of packaging, Cermex defines THE solution adapted to your current and future requirements.

Robot pick and place case packing solutions designed to meet your specific requirements:

▶ ADVANTAGES

- > Handling of products in various shapes and forms on a single machine, including flexible products (bags, doypacks, etc.)
- > Reduction or elimination of mechanical parts for product collation, resulting in improved access as well as greater speed/ease in size changeovers
- > Smooth and accurate movements at high speeds thanks to Delta, 4 or 6-axis robots
- > Pendulum design of the robot giving maximum operator access
- > Freedom in layout of product and case conveyors
- > Improved access for easy maintenance and cleaning
- > Optional integration of product quality control solutions by vision system
- > Machine versatility thanks to the intrinsic re-engineering possibilities of the robot concept

▶ PERFORMANCE

- > Payload: up to 14 kg
- > Speed: up to 100 cycles/min
