

- ▶ High speed distribution of all types of products
- ▶ Reliable concept
- ▶ Optimum product protection

Your products are in good hands

Traintonic

High Speed Lane Divider

A lane dividing solution to meet your specific requirements:

▶ TECHNICAL CHARACTERISTICS

- ▶ Mechanism synchronised to the conveyor belt speed by numeric control
- ▶ Servo motors
- ▶ Solution adaptable to all machine layouts

▶ ADVANTAGES

- ▶ Various non-accumulable product shapes and sizes handled: cartons, bottles, trays, etc.
- ▶ Continuous lane dividing without accumulating products
- ▶ Train length automatically adjusted according to the line functioning
- ▶ Minimal maintenance thanks to a simple pulley system

▶ PERFORMANCE

- ▶ Distribution: from 2 to 12 lanes
- ▶ Noise free system
- ▶ Conveyor speeds up to 150 m/min
